LARGER BUILDING FOR MISSION IN CHORE

Brother Agi and his wife Olsee are still working with the Mission in Chore. They found a larger place to meet for the summer and moved in April 27th. The mission had a high in attendance of 28, and they are taking care of all the expenses of making this place usable. The Rich Heart Church has started discussions about the need to organize this group into

Choir's New Meeting Place

a Church. Please pray for both works as they grow in the knowledge and truth about the roll and responsibility of the New Testament Church.

RICH HEART BAPTIST CHURCH GROWING AS A SENDING CHURCH

It has been very interesting to watch a young church grow into being a sending church. Many members of RHBC are working just to survive. Living from day to day, some working just for food. Being part of a Church that provides for the needs of a Missionary is new to many of them. The Church has voted on several occasions to raise the amount that they give Brother Agi to use in the work at Chore, at first this would bring a lot of discussions about why, now it is changing to is that enough? It touches our hearts when we see the people allowing God to teach them.

CHURCH CHAIRS ARRIVE FROM CHINA

The sanctuary is starting to look like one and our chairs have arrived. Our container of chairs had sat in Beijing for a month before they were finally released. We purchased them direct from the maker in China. These are the same church chairs that have become so popular in the states. The price was \$15 USD per chair, but after shipping and customs tax they came to \$28 per chair. We are hoping our first service in our new sanctuary will be in May.

Chairs from China

TRANSLATION TEAM GROWING

Translation of the Bible into the Mongolian language is in full swing. It was just 4 months ago we began fulltime work at translating God's Word into Mongol. The team worked on a glossary of religious terms and came up with corresponding Mongolian words. At that time there were 4 people, Two Americans and Two Mongolians, working on this project. Since that time four more fulltime Mongolian translators have been added to this team. This past month we added Bymaba to the team. Bymaba is 35 years old young lady, and brings 9 years of experience translating English into Mongolian.

All these translators work every morning translating. Each one has been assigned a different book. The six books being worked on at this time are: Matthew, Mark, Luke, John, Acts, and Genesis. Then every afternoon the entire team

meets and for the past two months been going over the translated book of Matthew. With much discussion, each word, and every verse is accounted for and agreed upon as being the best translation of the

Children's Class at Choir

English. Matthew chapters 1-11 have been completed. We are presently looking for a talented Mongolian grammar teacher to join the team to assure that the finished work will be in proper Mongol. Once this has been accomplished the Mongolian translation will be sent to another group of translators who will back translate it into English. This will be sent to several pastors and faithful church members in the United States to be checked for correct context. Then any discrepancy will be addressed by the entire team and agreed upon before it is printed.

Please keep this work in prayer, Satan has thrown up many obstacles to hinder this work. Everyone here knows and understands that this work is beyond our abilities and a Bible in Mongol will only be by God's hand. If you would like to have a part in providing the Word of God to an entire nation, email us and we will let you know what you can do.

TWO COME FORWARD PROFESSING JESUS

The third Sunday of April two ladies came forward and told of their accepting Jesus as Savior and expressed their desire to join RHBC. They will be baptized the first Sunday of May. We will have pictures and more about these two in next months report.
