

WHAT A DIFFERENCE A YEAR MAKES

The picture above and on the left is the finished church building in Chore, Mongolia. It was almost one year ago when we sent out the sad update that this building was frozen. Almost all of the recently installed radiators had been damaged and needed replacing. Many, many of you

Chore's finished sanctuary

sacrificially reached into your pockets and sent money to help repair this damage. It was through this generosity that the members of Chore had the means to repair their not yet finished building. They were not only able to repair the damage this summer they were able to complete this building and now are prepared for what ever this next Mongolian winter has to give. Pastor Agii wanted me to once again tell everyone that helped in this effort thank you so much. He also wanted me to tell you all that you can rest assured that this building will be used to preach the Gospel and house a church that will be a pillar and ground of Truth that was once delivered to the saints.

Picture above and to the right is a picture of the now completed church building in Chingeltei. This summer many final details were finished and like Chore this building is ready withstand the harsh Mongolian winters.

New members of Rich Heart Church

country that has only recently began to hear about Jesus and Christianity. The two young ladies who were baptized and joined Rich Heart church were brought to church by one of our young teenage members. Chingeltei Baptist Church also added three new members to their congregation. This is even a greater blessing because Brother Dennis, their pastor, is not able to be with them right now, yet God blesses. UGINOOR, A WORK IN PROGRESS We had an opportunity to visit the work in Uginoor during October. This is a tiring trip but always well worth the effort. We found Brother Erdenbayer and family all doing well, both spiritually and physically. There are several who had made professions of faith but as yet have not come forward for baptism. Christianity is new to this village and baptism is a hard concept for many who only knew Buddhism. The influence of the Macedonia Medical team is still being felt throughout this community. Brother Erdenbayer has become a well respected leader in the community because of this. Pray that the Lord will use this to lead many to salvation. CARRELLS IN THE STATES Charlotte has finished her radiation treatments and is working through the process of finding the correct dosage of the meds she will be taking for the next few years. We had one church respond to our plea for help with the great expenses this has put upon them. I once again ask that you please prayerfully consider this need.

country that has only recently began to hear about Jesus and Christianity.

MONGOLIAN CHURCHES CONTINUE TO ADD MEMBERS

Rich Heart Baptist Church added two members by baptism. Our young people are telling their friends what it means to know Jesus as their Savior.

New members of Chengeltei Church

The two young ladies who were baptized and joined Rich Heart church were brought to church by one of our young teenage members.

Chingeltei Baptist Church also added three new members to their congregation. This is even a greater blessing because Brother Dennis, their pastor, is not able to be with them right now, yet God blesses.

UGINOOR, A WORK IN PROGRESS

We had an opportunity to visit the work in Uginoor during October. This is a tiring trip but always well worth the effort. We found Brother Erdenbayer and family all doing well, both spiritually and physically. There are several who had made professions of faith but as yet have not come forward for baptism. Christianity is new to this village and baptism is a hard concept for many who only knew Buddhism. The influence of the Macedonia Medical team is still being felt throughout this community. Brother Erdenbayer has become a well respected leader in the community because of this. Pray that the Lord will use this to lead many to salvation.

CARRELLS IN THE STATES

Charlotte has finished her radiation treatments and is working through the process of finding the correct dosage of the meds she will be taking for the next few years. We had one church respond to our plea for help with the great expenses this has put upon them. I once again ask that you please prayerfully consider this need.

Please hold up these two young churches in prayer as they continue on the long road to maturity in a
